

## INTRODUCTION

This is the second in a series of compilations of genealogical data from a variety of sources for Old Somerset, the mother county of present-day Somerset, Worcester, and Wicomico Counties in Maryland as well as a large part of Sussex County, Delaware. While the first volume covered the original settlement period of the 17th century, this one continues from 1700 through 1725. An indication of the rapid growth which took place is the fact that Somerset was the most populous of the Maryland counties at the beginning of the 18th century. This growth is reflected by an increase of about one-third in the number of entries in this volume as compared with the first.

As stated, the data has been compiled from a variety of sources including probate, parish, and judicial records among others. In addition, incorporation of the earliest extant tax list for the county provides coverage of a segment of the population which may not, perhaps, have otherwise appeared in the records usually consulted. I refer to those whose economic condition may not have been such as to warrant probate or to have acquired land. A great deal of valuable information is also contained in the land records. The sheer volume of those records would preclude inclusion herein even if Ruth T. Dryden's masterful three-volume work on the land records of the three counties were not already available.

Please bear in mind that this compilation provides "bare-bone facts". Researchers finding entries of interest should, if practicable, refer also to the sources themselves for possible additional information as well as to the land records or abstracts from them.

I have taken all reasonable care to ensure accuracy in this compilation but it is unfortunately true that errors may inadvertently occur. If the reader should encounter any inaccuracies, I shall appreciate being so informed for correction in any future editions.

Wilmer O. Lankford

Route 1, Box 2 - B  
Princess Anne, Maryland 21853

## EXPLANATORY NOTES

The following relates to the column headings in the body of the text to aid in interpretation.

### Date

As a rule dates shown are reproduced as recorded but with modifications in these instances:

.. more lengthy abstracts of wills are divided into two parts identified as (1) and (2); these will usually appear out of date sequence.

.. when the original carries an incomplete or illegible date, it is so recorded but may also appear out of sequence.

.. an apparently illogical sequence of dates may result from the fact that all dates are Old Style with the year beginning on March 25.

.. in the case of the Judicials, dates used are those of the opening session unless quoted from a specific document in the record bearing a different date.

.. for the Tax List, the date of July 1 has been arbitrarily assigned for each entry. It is not known at which dates the constables for the several hundreds actually compiled their lists.

### Names

It is my general feeling that names should be recorded as they appear in the original documents. This is an alphabetized listing, however, and to follow that principle would mean that many names for the same families would be scattered and more likely to be overlooked. For that reason, I have altered spellings in a number of cases but have attempted to show what has been done by indicating the original spelling in the "Remarks" column as OT ---.

#### Code

Entries in the "Code" column are used in some cases to indicate the nature of the document referred to or, for parish records, what was recorded. "W", "I", and "A" correspond to Will, Inventory, and Administration, respectively, with "B", "M", and "D" to born, married, and died.

#### Remarks

Space limitations, unfortunately, have required the use of abbreviations in this column:

acct	=	account
admr	=	administrator
admX	=	administratrix
appr/inv	=	appraised inventory. (Usually performed by professional appraisers; NOT to be confused with "approved" (signed, certified, etc) inventory normally done by family member, close friend, or creditor.
b-in-law	=	brother-in-law; also s-in-law, m-in-law, etc.
bro	=	brother
CM	=	current money (as opposed to sterling)
cous	=	cousin
dau	=	dau
decd	=	deceased

def	=	defendant
exec	=	executor/executrix
gdn	=	guardian
HH	=	household
inv	=	inventory
LbT	=	pounds of tobacco
ment	=	mentioned
nok	=	next of kin
O'seer	=	overseer of will; similar to executor
OT	=	originally or otherwise transcribed
plt	=	plaintiff
prob	=	probated
ref	=	reference or referred to
sis	=	sister
svt	=	servant
w	=	will
wf	=	wife
witn	=	witness
